and pineapple with a fiery garnish!

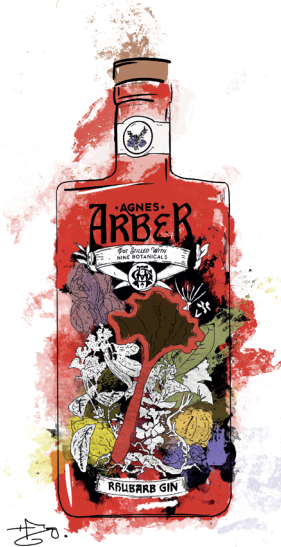

## AGNES ARBER: THE FIRST LADY OF BOTANY

On 24 May 1948, aged 69 years, botanical historian Agnes Arber became the first woman to receive the Gold Medal of the Linnean Society of London, in honour of her contributions to botanical science.

Awarded only in exceptional circumstances, the Linnean Gold Medal is the Linnean Society's highest honour and is presented in recognition of outstanding service to the Society. It has only been awarded three times in the history of the organisation. It is in recognition and admiration for the first lady of botany that we created the Agnes Arber gin range.

**AGNES ARBER PREMIUM GIN**  
Pot Stilled from nine botanicals and premium grain spirit to give a crisp, citrus-led gin.

**AGNES ARBER RHUBARB GIN**  
From the original illustration, we wanted to introduce a splash of colour; One more flavour in a beautifully balanced array of skilfully selected flavours. So after distillation, the gin is infused with a luscious tartness of rhubarb.

**AGNES ARBER PINEAPPLE GIN**  
A rich and totally tropical gin with freshly cut pineapple and a hint of mango on the nose. The palate delivers big pineapple flavour where the tropical fruits are ever present but beautifully balanced with the crisp freshness of the citrus-led core gin.
